

Letters We Love

For many years, the best-loved feature in the GNU magazine was the letters page, "LETTERS WE LOVE." Truly, we loved to hear from our readers about what was on their hearts and minds. Many readers read LWL first, before anything else in the magazine.

Inexplicably, we let the feature lapse. Now it is time to revive it.

We need to hear from our readers again. We need to make the magazine more interactive.

Please write us with your ideas, questions, opinions, gospel insights, prayer requests, and anecdotes.

Surely, in this age of fax, e-mail, cell phones, and AOL, you can tell us a little about what is happening in your life. If all else fails, write us a letter (or postcard)!

Get to see your name in print!

Dear GNU:
Thank you for your gospel-centered magazine.
Our church recently had evangelistic meetings. The lectures gave us details about antichrist and the beast in Revelation. We were all depressed.

By mistake, I received two copies of the May 2000 GNU magazine. I gave one to our pastor and a gospel revival was on!

The pastor gave the magazine to the evangelist. He threw out all his lectures

on the meat question and began to preach Bible doctrines from a gospel perspective.

Our church was so excited, that the news got to the conference president. When he visited us, he, too, understood the ultimate importance of the historical gospel of our Lord Jesus Christ.

As a result, our campmeeting theme was, "The Magnificence of the Cross of Christ." Lives are being blessed and uplifted!

John Bunyan
